Dear Mr. Sandhu

I am writing to thank you for your truly wonderful donation for the deserving children on our waiting list to. I will write at a later date and let you know when the money is spent.

Your wonderful generosity enables us to continue to provide holidays and day trips for special children, bringing happiness, hope and excitement into their lives.

Many of these children face early death, sometimes the death of a friend at a special needs school or their own impending death. The wonderful opportunities your donation provides gives them special times to explore feelings and situations. When you have to give the children a lifetime of happiness in a few short years, every positive experience is invaluable.

Thank you so much for helping us to spread the magic for these children. We could not do it without you.

With Kind Regards
