

THE SCOTTISH GREEN APPLE ENVIRONMENT AWARDS

SANTON GROUP ON THE WAY TO GREEN GLORY ... AGAIN !

The Santon Group based in Ealing, London W5 has won another Green Apple Environment Award in the national campaign to find Scotland's greenest companies, councils and communities.

They competed against more than 100 other nominations in the Scottish Green Apple Awards, and they will be presented with their trophy and certificate at a glittering presentation ceremony in Edinburgh Zoo on September 2.

Environment Minister Paul Wheelhouse has been invited to present their trophy, subject to availability.

As a result of this Scottish Green Apple Award success, they have been invited to have their winning paper published in The Green Book, the leading international work of reference on environmental best practice, so that others around the world can follow their example and learn from their achievement.

They could also progress to represent Scotland in the European Business Awards for the Environment.

The Green Apple Awards began in 1994 and have become established as Britain's major recognition for environmental endeavour among companies, councils, communities and countries.

The awards are organised by The Green Organisation, an independent, non-political, non-activist, non-profit environment group dedicated to recognising, rewarding and promoting environmental best practice around the world.

The Green Apple Awards are supported by the Environment Agency, the Chartered Institute of Environmental Health, the Chartered Institution for Wastes Management and other independent bodies.
