Dear Mr Sandhu,

I am writing to thank you so much for your letter and your wonderful donation of £5000.00 you recently sent to support the Stroke Association's research programme.

Your incredible support is crucial in allowing scientists, doctors and therapists to investigate ways to prevent stroke in the future, as well as improve treatments and rehabilitation for stroke survivors today.

In the current economic climate it is an enormous challenge to find the funding to support important research projects. As I know you will understand, the nature of research means that it can take a significant amount of time to reach definitive conclusions which can impact on the lives of people like your Father, who have had their lives changed by stroke.

The Stroke Association is the UK's leading stroke charity, and at the forefront of funding research into prevention, treatment, rehabilitation and long-term care. Your exceptional donation helps to ensure that we are able to continue this vital research to change lives today and save lives in the future.

Thank you so much for your incredibly kind gesture.

Yours sincerely,
