15th October 2019

Dear Supporters,

One day we will beat cancer. Your very generous donation of £2000 will help us make that day sooner. On behalf of everyone at Cancer Research UK, thank you. We really do appreciate it and cannot thank you enough for your support. It's through donations like this that we are able to continue our vital life-saving research so your donation really is bringing forward the day when all cancers are cured. We promise to make it count.

Cancer sadly affects 1 in 2 people in the UK, but your generosity means that we can bring real hope to those diagnosed with cancer and their families. Through our research, we've seen ten year survival rates double from one in four 40 years ago, to two in four today.

While this is a significant achievement, there remain many patients for whom outcomes are particularly poor. Our ambition is to accelerate our work so that three in four people survive the disease within the next 20 years.

Our research, entirely funded by people like you, will ensure that more people survive cancer; which is why we are so grateful for your support.

If you have chosen to hear from us, we'll keep you updated about the progress we are making and the ways you can support our work in the future. If you would prefer not to hear from us, and haven't told us this already, you can contact us on 0300 123 1022 or at supporter.services@cancer.org.uk to let us know. If there is anything else we can do for you please call us on the number above or you can visit us at www.cruk.org.

Together we will beat cancer.

Yours faithfully,

Trudy Stammer
Head of Volunteer Fundraising

If your communication to us includes personal information about your experiences of cancer, please be assured that, in line with General Data Protection Regulations, while we have stored this information on our system to enable us to respond to you, this will not be used by Cancer Research UK for any other purposes.
