Prostate Cancer UK: Thank You

Dear Bim and Pardeep,

Thank you so much for your very generous donation of £10,000 towards the fight against prostate cancer. We are truly grateful to have your support at a time where thousands of men and their families living with prostate cancer have experienced disruption to their diagnosis and treatment pathway due to the coronavirus pandemic.

Our first-class support services have adapted quickly to the challenges men and their families are facing and have been a vital source of information to so many in these difficult circumstances. The recent launch of our [online risk checker](#) will also help to combat the drastic drop in GP referrals that we now know has led to 8,600 fewer men starting treatment for prostate cancer in 2020 than in previous years.

Despite the economic impact of the pandemic limiting our capacity to invest in new research, the continued support of donors like yourselves has ensured our current portfolio of projects are still running and our world-class researchers are leading some incredible projects that will change the diagnosis and treatment pathway for men. The support of our donors will mean that we can press ahead with our ambitious research strategy and deliver more cures with less harm for men.

Please accept this letter as an official receipt of your incredibly generous donation. Thank you again for your support and for helping us to create a future where lives are not limited by prostate cancer.

Kind regards,

Kimberley Shann
