

Dear Bim and Pardeep,

Thank you for your message, I hope this email finds you and your family safe and well. Thank you for your concluding donation for the Wellbeing support project.

It's lovely to hear from you; what a year we have had indeed! We have suffered a long period with our students working fully online; and yet we have high levels of satisfaction with our education (but not with the social isolation of course), and currently have enrolled more students than ever before. However, we can also see where the pandemic has exacerbated inequalities and increased demand on our student support services, at all levels. I'm delighted to tell you that Dr Hannah Friend, Warwick's Director of Wellbeing and Safeguarding has launched a new strategy for Wellbeing and Safeguarding that champions the mental health and wellbeing of all members of the university community so that everyone may thrive in their university experience. Whilst we have also proactively acted to support students to cope with the added pressure and to tackle the multifactorial challenges of living through a global pandemic, sometimes in isolation. Your support continues to be invaluable.

Many thanks and best wishes,  
Natalie.
