Inspiring Minds

23 February 2022

Dear Bin and Pardeep,

Thank you so much for your very generous donation of £2,500 to sponsor Latymer's STEM Academy for this year. STEM Academy has been a key component of Latymer's wider social outreach for many years and I could not be more grateful to you for your longstanding and generous sponsorship.

Many school children experienced considerable disruption to their education as a result of the pandemic and there has never been a greater need for STEM Academy. Your sponsorship makes it possible for the programme to inspire academic curiosity in children, to nurture a passion for learning beyond the curriculum and encourage confidence, ambition and lateral thinking.

So far, 11 secondary schools are taking part in the programme, with 33 children involved overall. We have had such a high level of interest from Chiswick School that they have requested that a member of our STEM staff go in and offer an assembly on Computer Programming and Robotics to their students. This high level of engagement is a real testament to the huge difference the programme makes to so many children in our local community.

Thank you on behalf of the Governors and myself for your longstanding philanthropic support for the Latymer Foundation, which has benefited both our students as well as young people in our local community.

I am so grateful to you both for your steadfast and inspirational contribution to the School. The impact has never been more important and, on behalf of all the young people who have benefitted, I salute you!

Kind regards,

David
